

Press Release

Indra and EDGE Group sign an agreement to develop and manufacture next-generation radars in UAE

- *Agreement will give the new Abu Dhabi-based JV access to a non-NATO, non-EU pipeline of orders for almost 300 sophisticated radar systems, and will significantly expand its capabilities in the advanced radar solutions business for air, land, and sea*
- *With this agreement, Indra will increase strategically and accelerate the technological and commercial development of its radars business with new opportunities in high growth international markets, a key objective of its new Strategic Plan*

Abu Dhabi, UAE / Madrid, Spain: 04 March 2024 – EDGE Group today formalised a new Joint Venture (JV) agreement with Spain's Indra Sistemas (Indra), a world-leading information technology and defence systems company with a footprint in over 140 countries worldwide, and a significant player in major European programs such as the Eurofighter and the Future Combat Air System (FCAS), among others. The agreement, signed in Madrid by EDGE Managing Director & CEO, Hamad Al Marar, and Jose Vicente de los Mozos, CEO of Indra, will see the new Abu Dhabi-based JV develop and manufacture next-generation radar systems in the UAE, opening a pipeline of orders for approximately 300 advanced radar solutions. The new business will be granted prime rights for current and future non-NATO and non-EU orders awarded to Indra.

H.E. Faisal Al Bannai, Chairman of EDGE, said: "We see tremendous value in building relationships which will spur growth and bring tangible benefits to all parties. Our new joint venture with Indra, as a global market leader in the field of advanced radar technologies, will enable us to combine the strengths of both companies to create an entity which will become a major industry-player in this sector. We are confident that this strategic partnership will prove to be a highly successful one."

Marc Murtra, Chairman of Indra, said: "This agreement between the two companies can create one of the world's leading players in the field of radar technology and is a step forward in Indra's international expansion strategy. With strategic initiatives such as this, we are making decisive steps in key vectors of our Strategic vision 2024-2026: technological leadership, international growth and partnerships building".

The JV will place a strategic focus on the continued development of sophisticated technologies, innovation, and global market expansion by targeting untapped and fragmented non-NATO markets outside of the European Union. EDGE will bring its commercial strength and technology

building blocks, while Indra will enhance the new company's capabilities by transferring technology, and shifting some engineering, commercial, and manufacturing capabilities to the JV.

Speaking at the official signing ceremony at the Ministry of Defence in Madrid, EDGE Group Managing Director & CEO, Hamad Al Marar, said: "This new joint venture with one of Europe's top three defence technology players in this sector will enable EDGE, in partnership with Indra, to significantly expand and diversify the scope of its offerings through knowledge sharing, and the development and manufacture of advanced radar systems to customers around the world.

"In line with our strategy for growth through mutually beneficial partnerships, we are fully committed to this venture, which will be built on both companies' existing reputation for excellence, and which will enable us to combine our strengths to drive innovation, develop sovereign capabilities, and expand market reach, while contributing to the technological advancement and economic growth of the UAE, and Spain."

José Vicente de los Mozos, CEO of Indra, said: "The JV between Indra and EDGE Group will be recognised for its capacity for innovation and the use of the most sophisticated technologies. This JV will help us to expand our geographical reach and our international mindset in our Defense business and will increase our proximity to the global clients. We in Indra are convinced that this JV will create new significant business opportunities in new markets. This agreement is one more asset of the Industrial and Strategic Plan "Leading the Future" that will be presented on March 6th, a decisive strategic transformation milestone for Indra"

The JV will also focus on building a team of highly-qualified personnel in the UAE, particularly in sales and engineering roles, by leveraging local Emirati, as well as global talent, ensuring sustainable operational excellence and innovative output.

About EDGE

Launched in November 2019, the UAE's EDGE is one of the world's leading advanced technology groups, established to develop agile, bold and disruptive solutions for defence and beyond, and to be a catalyst for change and transformation. It is dedicated to bringing breakthrough innovations, products, and services to market with greater speed and efficiency, to position the UAE as a leading global hub for future industries, and to creating clear paths within the sector for the next generation of highly-skilled talent to thrive.

With a focus on the adoption of 4IR technologies, EDGE is driving the development of sovereign capabilities for global export and for the preservation of national security, working with front-line operators, international partners, and adopting advanced technologies such as autonomous capabilities, cyber-physical systems, advanced propulsion systems, robotics and smart materials. EDGE converges R&D, emerging technologies, digital transformation, and commercial market innovations with military capabilities to develop disruptive solutions tailored to the specific

requirements of its customers. Headquartered in Abu Dhabi, capital of the UAE, EDGE consolidates more than 25 entities into five core clusters: Platforms & Systems, Missiles & Weapons, Space & Cyber Technologies, Trading & Mission Support, and Homeland Security.
