

Las 9 tendencias tecnológicas que transformarán los servicios públicos y mejorarán la vida de los ciudadanos

Inteligencia Artificial

- Cognitive Expert Advisors
- Conversational Systems
- Deep Learning
- Natural Language Processing

Blockchain

- Blockchain and Distributed Ledgers

Citizen Engagement Analytics

- Customer Engagement Hub
- Personal Analytics
- Social Media Analytics

Tecnologías Cloud y Supercomputación

- Cloud Service / Data Brokerage (Open Data)
- FOG Cloud. Global Dynamic Automation from Servers to Mobile Devices
- High Performance Computing
- Native Cloud Frameworks for Mesh App and Microservices
- PaaS and Hybrid Cloud Enabling Platforms

Nanotecnología

- Nano - Machines
- Photonics
- Quantum Technologies

Nuevos Procesos de Producción

- 3D Printing

Robótica y Espacio

- Autonomous Vehicles
- Cubesats
- Robotic Process Automation
- Social Robots
- Unmanned Aerial Vehicles

Plataformas Inteligentes

- Big Data Platforms
- Communication Network
- IoT Platforms

Mundo Virtual

- Digital Twins
- Virtual and Augmented Reality
