

# Maintenance, Repair and Overhaul (MRO) of Aeronautical Components

More than 20 years of experience in Integrated Logistic Support, Maintenance, Repair and Overhaul of aeronautical components

## Overview

Since 1996 Indra has developed into a diversified aerospace business, capable of repairing a comprehensive mix of aircraft instruments, avionics, radar, communications, optronics and several on board systems for military, corporate, commercial, and general aviation classes of fixed and rotary wing aircraft.

Our modern shop, extensive repair capabilities and extremely knowledgeable staff provide state of the art on aeronautical systems support.

Our business model is centered on product support using strictly Original Equipment Manufacturer (OEM) parts.

## MRO System Capability

- Headquarters located in Madrid, Spain.
- Our main MRO shop with more than 30.000 m<sup>2</sup> is highly specialized in expanded logistics support programs.
- Repair and Overhaul management is an Indra core competency.
- Indra manages and plans maintenance, modification and logistics solutions for operators in need of urgent and turnkey projects.
- Indra provides total lifecycle support for customers with multiple maintenance needs.

## MRO SYSTEM CAPABILITIES

- Instruments.
- Avionics.
- Communications.
- Radar.
- Optronics.
- Electrical Power.
- Hidraulics.
- Fuel.
- Flight Control.
- Navigation.
- Safety.
- Data Link.
